

Meet Winnie & Her Pups!

Winnie came to the Hamilton/Burlington SPCA through Six Nations Animal Control in February 2017.

She also came with six puppies, who still depended on her for food and love.

Unfortunately, Winnie is positive for both **Heartworm** and **Lyme Disease**.

Heartworm is painful and expensive (approx. \$1,500) to treat. **Please Donate today** and help Winnie get the happy ending she deserves. **Thank You!**
