

IMMEDIATE RELEASE

See the future of animal shelter care in Hamilton and join "Bark to the Future"

(October 3rd, 2017) 130 years ago, the Hamilton SPCA was founded to serve the welfare needs of working animals on farms and in urban areas. Today, while the needs of animals in the community have changed, the now "Hamilton/Burlington SPCA" (HBSPCA) remains committed to healthy, safe and wanted pets.

So what does that mean for animals in care? Providing our kennel friends with choices for freedom of expression.

The HBSPCA is pleased to announce the unveiling of shelter renovation plans at a special event for shelter animals - "Bark to the Future".

Join us Thursday, October 26th at Ancaster Toyota for an evening to benefit renovations, all for the animals. Enjoy live music, catered snacks and be the first to see how shelter design will make a difference for homeless and neglected animals on their way to forever homes. Share your stories about your adopted family members. Tell us what you like about optimal housing for rehabilitation and play.

"Animals enrich our lives. We invite animal lovers and those who care about the rescue, rehab and rehoming of pet companions to help us enrich their lives," says Juanita Gledhill, Board Chair. "We hope you will join us and support the plans with your time, talent and treasure to provide animals in care an environment that better supports their health and well-being."

When: Thursday, October 26th, 2017. 6:30pm - 10pm

Where: Ancaster Toyota, 30 Mason Drive, Ancaster

Cost: \$65 (a tax receipt will be issued for \$45)

Tickets: Available at www.hbspca.com/bark-to-the-future or in person at the shelter

For more information, contact:

Melissa Bennett, *Manager of Development and Outreach* at 905.574.7722 ext. 330 or mbennett@hbspca.com.
